### TIM SULLIVAN DIES.

(By Associated Press.)

NEW YORK, Dec. 22.—Timothy Sullivan "Little Tim," a bowery power in politics, died tonight, after having suffered from Bright's disease for six months. He was a cousin of his partner, "Big Tim."

Early in middle life he was worn out, his friends declare, by overwork. At the time of his death he was chairman of the finance committee of alderman. He never drank or smoked, declaring "Boozers never succeed."

## MYSTERIOUS AIRSHIP HOVERS OVER CITY

USES POWERFUL SEARCHLIGHT IN TAKING FIFTEEN MINUTES VIEW OF WORCESTER STREETS.

(By Associated Press.)

WORCESTER, Mass., Dec. 22.—Flying at a speed of between 30 and 40 miles a mysterious airship tonight appeared over Worcester, hovered for a few minutes, disappeared for two hours, returned and cut four circles above the city, using a searchlight of tremendous power. Thousands of watchers thronged the streets. The airship remained over the city for fifteen minutes, all the time at a height of about 2,000 feet. The gliding rays of the great searchlight were sharply defined. At the time of the airship's visit, Wallace Tillman, who recently claimed to have invented a marvelous aeroplane, in which he said he had journeyed to New York and returned by way of Boston, was absent from his home and not to be found.

## MINER GOES GUNNING WITH FATAL EFFECT.

(By Associated Press.)

LONDON, Ky., Dec. 22.—A triple murder and suicide occurred at Pittsburg, a mining village in this county late today, when William Murray, a miner, aged 35, shot Elbert Cole, Mrs. Murray, wife of the slayer, Mrs. Murray's mother and then killed himself.

Murray's objections to alleged attention of Cole to Mrs. Murray is given as the motive.

Cole is a son of Assistant Mine Inspector, Perry Cole, and was 22 years old.

Murray entered a store and opened fire on Cole, killing him almost instantly. He then went home and shot his mother-in-law, wife and himself.

## BANKER WANTS OUT.

HOUSTON, Dec. 22.—W. F. Woods, sentenced last January to serve an eight year term in the federal penitentiary for embezzling and misappropriating the funds of the defunct Woods National Bank, has made application for a writ of error to the United States circuit court of appeals at New Orleans. Woods was convicted by the federal court of this city and the circuit court of Louisiana, to which an appeal had been taken recently, affirmed the sentence imposed. The action now taken is the necessary preliminary to taking the case before the United States supreme court. It was shown at the trial that Woods had carried on his affairs of the bank in a very irregular manner. Among other things the evidence disclosed that various members of his family had an unusual number of bank books and deposits in the institution, one of them no less than seven.

## ADMIRAL REPOSES CONFIDENCE IN COOK

WANTS PEARY TO SUBMIT DATA TO SOME BODY THAT REPUDIATED BROOKLYN DOCTOR.

(By Associated Press.)

WASHINGTON, Dec. 22.—Reaffirming his complete confidence in Dr. Cook, Rear Admiral Schley, today called upon Peary to submit proofs he reached the pole to some scientific body other than the national geographical society.

This, the Admiral declared, should be done at once in the interest of justice to establish beyond all question, claims made by Peary. Admiral Schley believes the same body which threw out and repudiated Cook's data should be permitted to pass upon the data submitted by Peary to the geographical society.

## TAKES GOLD MINES.

EL PASO, Dec. 22.—An option was a view to purchase has been obtained by the Exploration Company, Ltd., of London, on the mining properties of the Reforma Mining & Milling company at Campo Morado in the state of Guerrero, Mexico. The consideration is 20,000,000 pesos or \$10,000,000 American. Should the purchase be finally consummated the deal would prove the largest mining transaction in the history of Mexico. The selling company is controlled by the Ortiz family of the City of Mexico. The properties cover a surface area of 2,500 acres and the total workings have a total length of over six miles. A concentrating plant and two lead smelters have been in operation for some time, and the intention is to install in the near future a pyritic smelter and an aerial tramway thirty miles long. The output at present amounts to over \$1,000,000 gold per annum, but there is no doubt that this can be augmented considerably.

The Exploration Company, Ltd., controls already many big mining properties in Mexico and the United States.

## CLUBS ENTER POLITICS

LYNN, Mass., Dec. 22.—The Federation of Men's Church clubs, through its Committee on City Betterment, has investigated the local political situation for about a year. The committee is convinced that it will be easier to secure good government for the city of Lynn if a few conspicuous officials, instead of being scattered and subdivided among obscure office-holders.

Accordingly, the committee recommends a new charter, following in a general way the Galveston plan; the entire city government being vested in a council of five men.

This simple plan, it is declared, will give less room for political opportunism, and will put the average citizen on practically an equal footing with the professional politician in city politics.

## PIGS GET PRESADIO IN SERIOUS TROUBLE

RANCHER ALLEGES THAT ACCUSED HAS STOLEN A NUMBER OF JUVENILE PORKERS.

(By Associated Press.)

Not one, but several fat, juicy porkers are alleged to have fallen a victim to Joe Presadio's carnivorous desires, according to a complaint filed in Justice High's court which resulted in the arrest of Presadio on a larceny charge.

L. L. Medigovich, a rancher living near here, says that he has been missing hogs for several weeks, over a half dozen having mysteriously disappeared in that length of time. Yesterday he found one of them in the possession of Presadio, and suspects that he knows something about the disappearance of the others.

Presadio says he found the pig in his possession. He will be allowed to prove this, if he can, at today's hearing. Meanwhile he is putting in his time at the branch county jail. The porker may be introduced as evidence.

## COOK MAY HOLD DEGREE.

COPENHAGEN, Dec. 22.—It is not believed that either the University of Copenhagen or the Royal Geographical Society will withdraw honors conferred on Cook. Officials of both say the institution did not bestow degrees as a reward for discovery of the pole, but merely as recognition of arctic explorations.

CHRISTIANIA, Dec. 22.—Fredrik Nansen, the Norwegian explorer, today broke his long silence and talked of the Peary-Cook controversy.

"My opinion," said he "is that Cook is no longer interesting. He is practically a dead man and ought to vanish from consideration. The world should never have trusted him."

Dear Friend:

Prunes, when you stew them are a mighty nice thing to bring breakfast with. Don't you think so?

There is lots of difference in the kinds of prunes you get though. If you want to get real nice prunes you must go to a grocery that carries good prunes and other fruits.

Prunes are nice and healthy, too. They make a good economical breakfast fruit.
